Simplified, Smart Control

New AlorAir-C APP WI-FI Connection Guide

Connecting the AlorAir-C app to the dehumidifier is the same for iOS and Android users.

—ALORAIR—

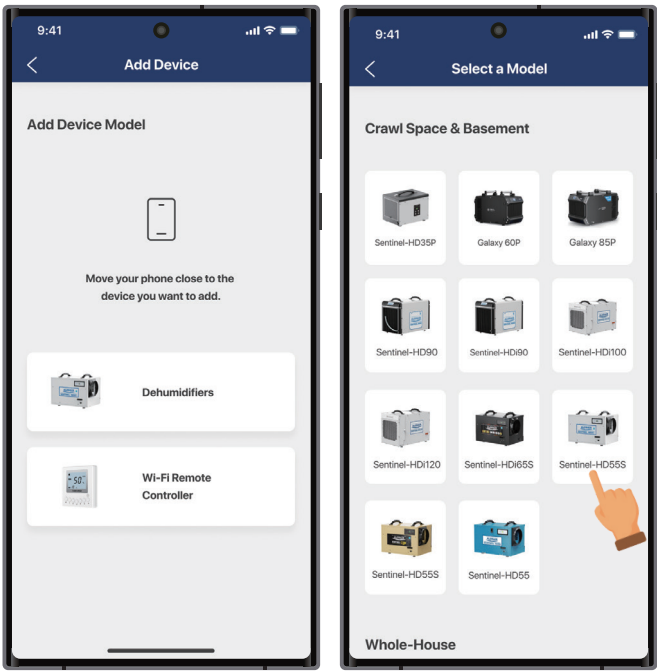

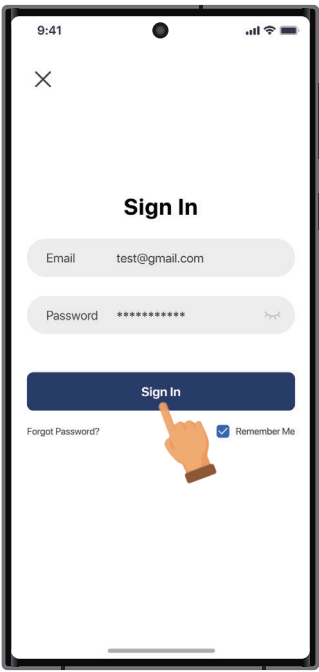

Download and install **AlorAir-C** from the App Store or Google Play Store.

Download on the **App Store**
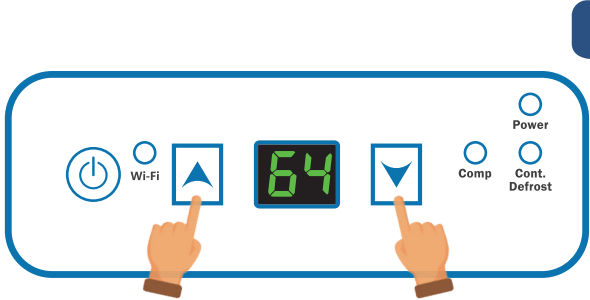

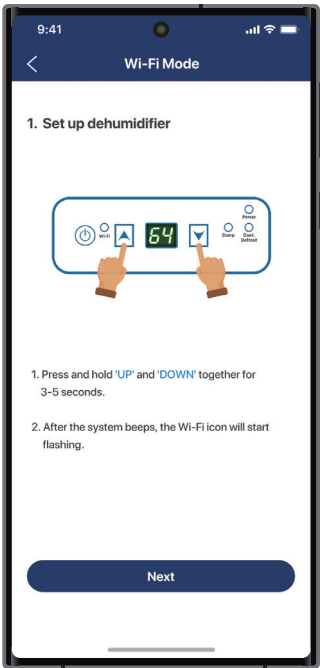

GET IT ON **Google Play**

How It Works?

1 Sign Up or Log In.

Create an AlorAir-C Account or log in if you already have one. Ensure the Account ID (including capitalization) matches your registration details.
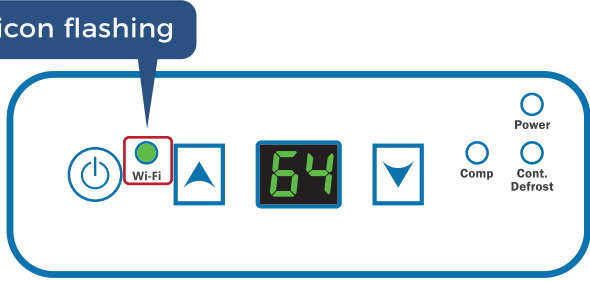

Sign In

Email   test@gmail.com

Password   ***********

2 Find your dehumidifier model.

Let's take **Sentinel HD55S** as an example.

Add Device

Add Device Model

Move your phone close to the device you want to add.

Dehumidifiers

Wi-Fi Remote Controller

Select a Model

Crawl Space & Basement

Sentinel-HD35P	Galaxy 60P	Galaxy 85P
Sentinel-HD90	Sentinel-HDi90	Sentinel-HD100
Sentinel-HDi120	Sentinel-HDi65S	Sentinel-HD55S
Sentinel-HD55S	Sentinel-HD55	

Whole-House

3 Follow these App steps to activate your device.

Wi-Fi Mode

1. Set up dehumidifier

64

1. Press and hold 'UP' and 'DOWN' together for 3-5 seconds.

2. After the system beeps, the Wi-Fi icon will start flashing.
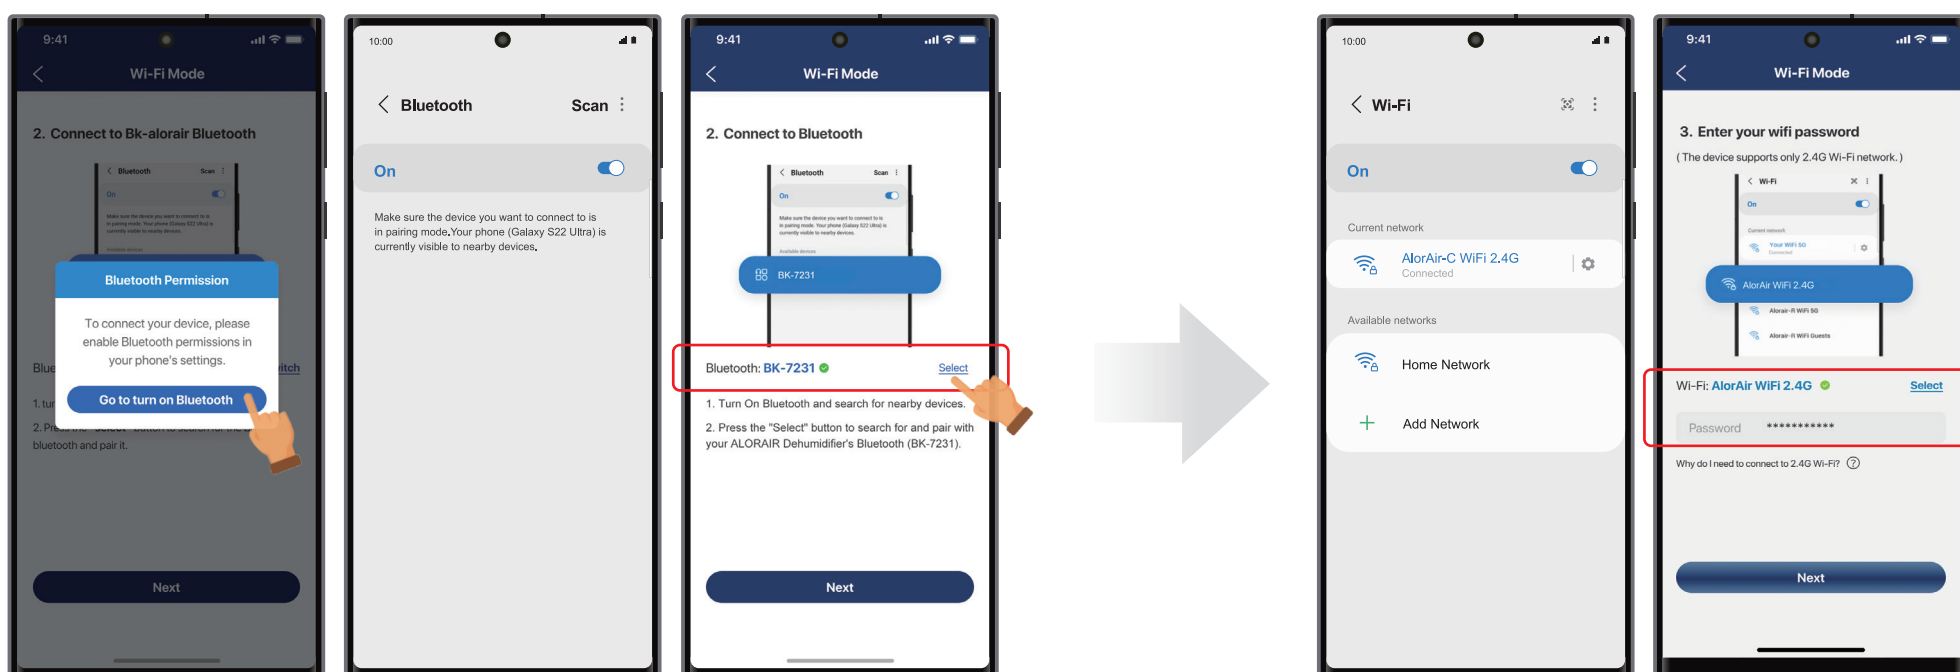

Next

Wi-Fi icon flashing

Press and hold **'UP'** and **'DOWN'** together for 3-5 seconds.

After the system beeps, the **Wi-Fi icon** will start flashing.
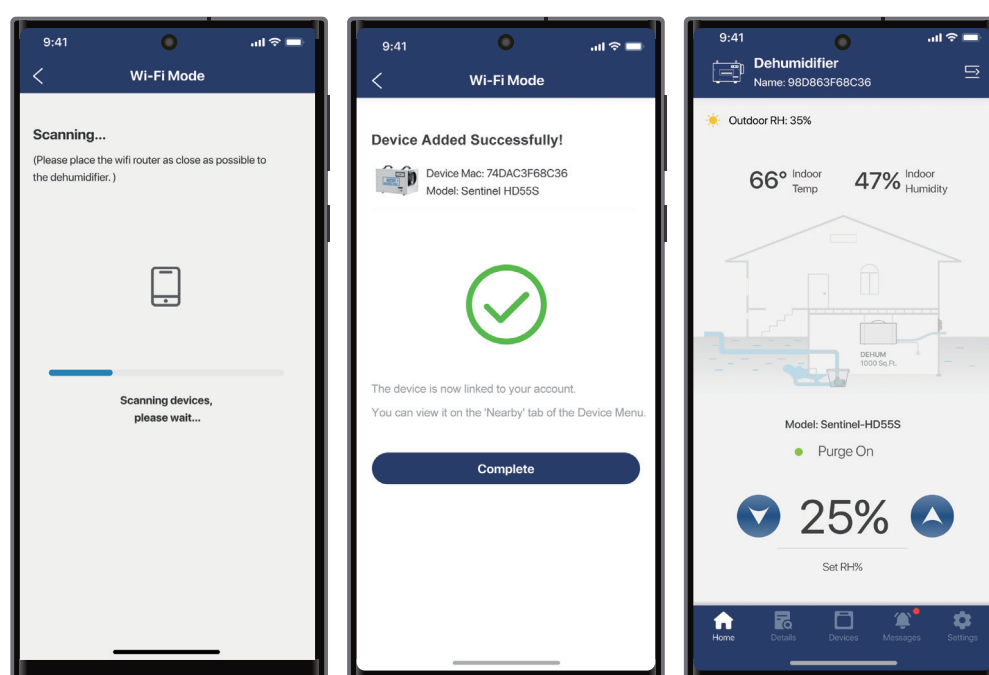

4 Enable Bluetooth on your phone, then select 'BK-7231' within the AlorAir-C App.

Do not connect Bluetooth from your phone's system settings as the device is only discoverable through the App.

5 Connect to the home Wi-Fi.

Wrong password will cause subsequent connection failure.

✓ CONNECTION SUCCESSFUL!

Once the app has sucessfully connected to the device, you can start controlling the device.

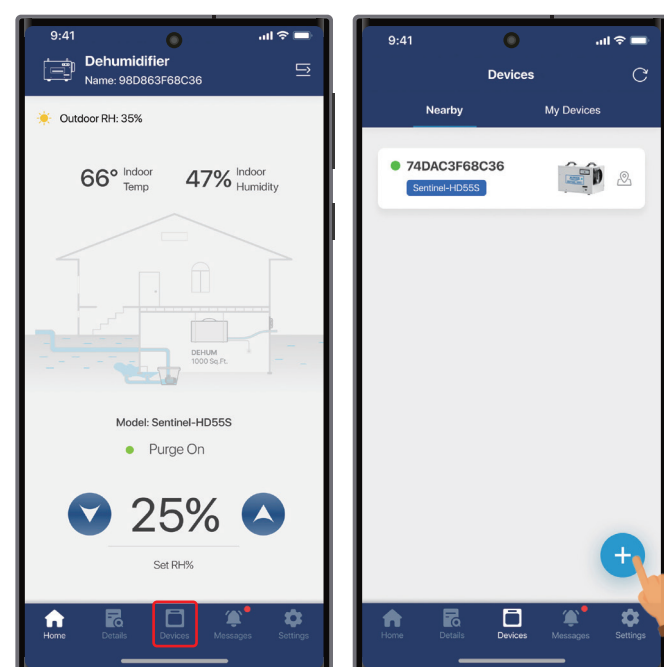

⊗ Connection Failure

If connection fails, follow the app's troubleshooting prompts and restart your device before retrying.

⊕ Add New Device

To add a new device, navigate to the 'Device' tab and tap the '+' button.
