Noise Level	68 dBA
Weight	11.24 lbs
Dimensions	14.25 x 12.79 x 10.62 in.
Operating Voltage	110–120 V
Power Cord	20 ft
Operating Temperature Range	14–122°F

PRODUCT APPLICATION

The **AlorAir GE1000 Air Mover** is a professional-grade device that combines efficiency, versatility, and portability. Its three adjustable airflow settings ensure rapid drying of surfaces such as carpets, floors, furniture, windows, and walls.

This Air Mover is not only versatile but also extremely flexible in use. **With 3 speed settings and 5 operating angles (0°, 90°, +10°, -10°, 45°)**, it is ideal for air drying as well as effectively improving indoor ventilation and air circulation.

Designed for commercial and industrial environments, the AlorAir GE1000 Air Mover is equipped with a **20-foot power cord** for easy use. Its durable PP housing ensures reliability in large-scale drying, cleaning, and restoration projects. The AlorAir GE1000 Air Mover can be combined with AlorAir's air purifiers and dehumidifiers to form a complete, comprehensive water damage restoration system.

In addition, the device offers excellent portability. It features a plug-and-play design—just plug it in and start using. Lightweight and compact, it's easy to store and transport, whether you're heading to a job site or moving it from room to room. For contractors, restoration specialists, or anyone who needs a portable solution, this device offers unmatched portability and convenience.

KEY DESIGN FEATURES

- 3-Speed Adjustable Airflow
- Stackable Design
- 20 ft Power Cord
