Safety Notes

WARNING:
• Do not adjust or alter the unit in any way. Only use the parts approved by AlorAir. Any adjustments or use of unauthorized parts will void your warranty. For further assistance, contact your installing distributor.
• Do not let children play with unit. Always keep the unit out of reach of children.
• Do not restrict airflow to unit.
• Do not use unit with extension cords.
• Do not use an external speed control device.
• Do not drop or throw the unit. This could damage the inner parts and wiring.
• Do not use the unit in standing water.
• Do not use the unit outside as the internal components may get damp.
• Do not use air mover with a malfunctioning outlet or plug.
• Do not run power cord under carpet, runners, or other coverings.

While Operating the Zeus 900:
• Always use a grounding plug and grounded electric outlet to reduce risk of fire and shock.
• Always use caution when stacking units to prevent them from falling. Avoid stacking units in crowded areas.
• Always secure units during transportation to prevent them from moving.
• Always maintain a reasonable distance between the air inlet and carpet or other materials. Failure to do so may clog the inlet or cause overheating.
• Always keep the motor free of dirt, dust, and other particles that could cause the motor to overheat. Clean the motor with a vacuum if it gets dirty.
• Always unplug the machine before performing any maintenance.
• Always contact an authorized technician for help repairing your machine.
• Always use the unit on a level, steady surface.

Identification

Congratulations on purchasing a Zeus 900 air mover. In order to take advantage of the warranty plan, be sure to note the serial number and date of purchase.

Serial Number:

Date of Purchase:

Parts Identification

Air Inlet Grille
Hi/Low Speed Switch
Auxiliary Outlet
Front Cord Wrap
Rear Cord Wrap
Circuit Breaker Reset Switch
**Operating Instructions**

*NOTE: Prior to use, verify that the power cord and plug are not broken.*

1. Ensure the power switch is off, then unwrap the power cord and plug it into a standard 115V GFCI-protected outlet.
2. Point the air outlet towards the area that needs to be dried.
3. Press the Up or Down button to adjust the airflow speed on the panel.
4. Once the surface is dry, turn the unit off and unplug the power cord.
5. Wrap the power cord around the machine in a clockwise direction and secure with a clip.
6. Use the handle to move the machine to the next drying area or to storage. The units may be stacked for transportation or storage.

*NOTE: Always keep the units dry.*

**Circuit Breaker Reset**

The Zeus 900 is equipped with a Circuit Breaker Reset Switch to protect from fire or shock risk. The Circuit Breaker switch will:
- automatically cut off power to the machine if the circuit is overloaded
- automatically cut off power to the machine if it finds a ground fault

If reset switch is flipped, complete the following steps:
1. Check the power line for any damage and ensure it is properly connected to a grounded outlet
2. Press the Circuit Breaker Reset Switch to restart the unit

**Maintenance**

**Cleaning the Housing & Impeller**

If dust or dirt has accumulated on the impeller, you will need to disassemble the housing (see instructions on next page) to clean it. Do not use liquids to clean the impeller- only a cloth or pressurized air. The housing can be cleaned with a damp, cloth but always ensure it is dry prior to reassembling.
AlorAir Warranty Steps:

1. Once receive the goods, customers must log in www.alorair.com to fill out the warranty registration form and submit to AlorAir company. We will receive your purchasing and installation information and save it. If no warranty registration is sent to us, warranty period will begin the day the shipment left the warehouse. Please be sure to record serial # and date of installation. You will need this information to receive the RA number.

2. If warranty service is necessary, customers must contact AlorAir Tech Support by sales@alorair.com or local technical service phone to receive a Return Authorization (RA number). Once an RA has been issued, customers should bring the unit to a certified repair center. AlorAir will arrange the shipping to bring the unit back to the AlorAir warehouse (at the expense of the customers) if customers are not available.

3. After the unit has been received by AlorAir (whether at a repair center or the warehouse), AlorAir will have an initial inspection. If it is determined to be invalid warranty claim (see exclusions below), customers have to pay for all associated repair costs and shipping costs for units repair.

4. Customers can pick up the unit after repair at their own expense for shipping. Units will have a rigorous testing before sending it back to customers.

5. If the unit can no longer be fixed, and it is in the warranty period and determined to be valid claim, we will ship the customer a new unit within the same year warranty from the date of replacement.

6. After parts are repaired or replaced by AlorAir, the original warranty period continues to applies until meet its deadline. No extensions to the original warranty period.
